# 10 Steps to Create an Infographic

After watching “10 steps to Create an Infographic” on Explain Everything, complete this handout with your group members. (1) The group should discuss each question and (2) everyone writes down what the group decides. *The sketch is the only section that may be different among group members.*

## Step 1: Find the Topic

Topic: \_\_\_\_\_

## Step 2: Find the Resources

Write the websites used in your research below.

1.) \_\_\_\_\_

2.) \_\_\_\_\_

3.) \_\_\_\_\_

## Step 3: Gather the data

Resource #1: \_\_\_\_\_

Notes:

---

#### Step 4: Find the Narrative

What is the intent of your infographic? What story or messages have been uncovered in your research that you want to send to readers?

---

---

---

---

---

STOP!

Check in with the Teacher X\_\_\_\_\_ (teacher initials)

What changes did your group make after meeting with the teacher?

---

---

---

---

#### Step 5: Identify problems

Does the data and information found, support your narrative? If no, go back and find more or make changes to the narrative.

---

---

---

### Step 6: Create a Hierarchy

What is the lead piece of data that “makes your jaw drop”? List other data in order of importance.

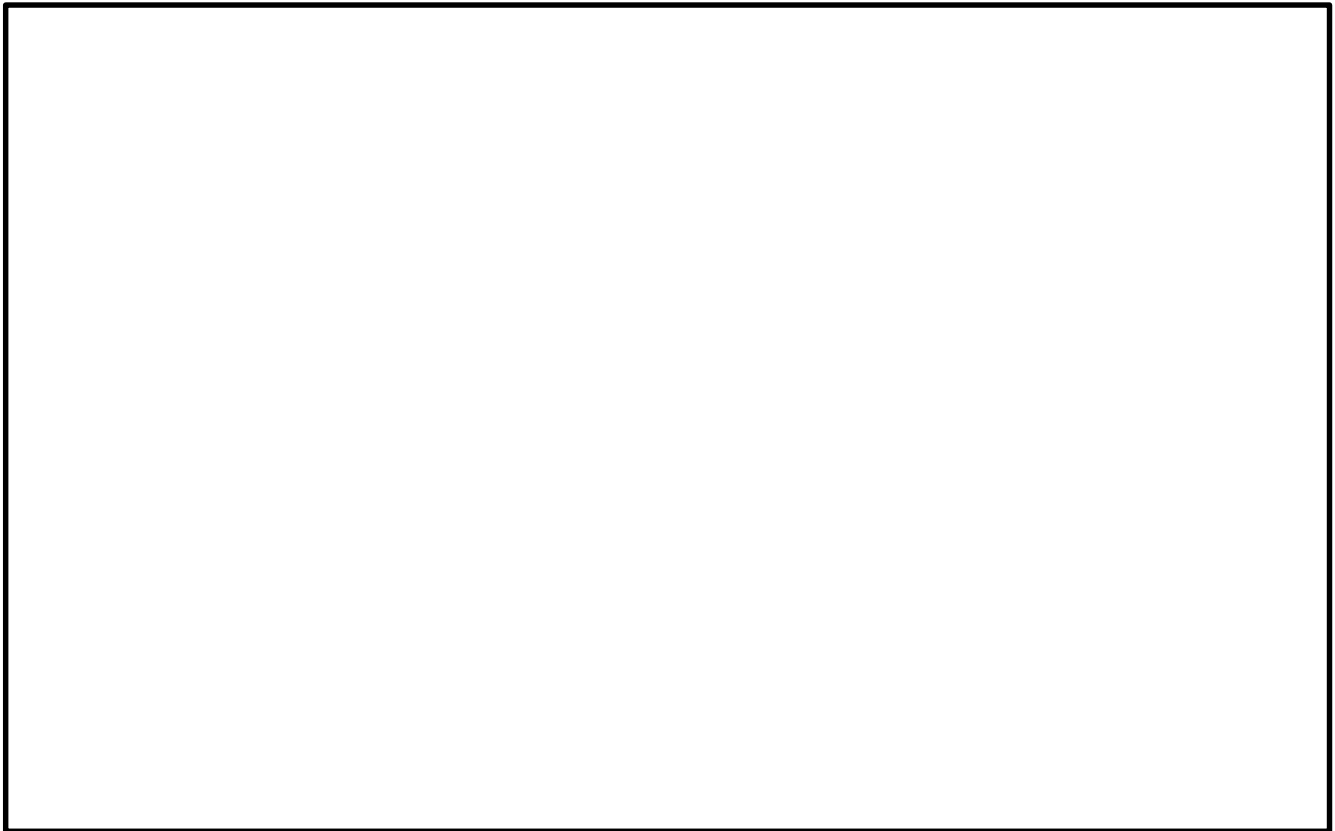

---

---

---

### Step 7: Build a Wireframe

Sketch out your infographic. Determine the placement of information.

### Step 8: Choose a format/template

Step 9: Refine. Edit the infographic.

Step 10: Share with classmates by displaying the final product on all of the iPads at the table.
